

# Rainer Mestermann is new CEO of Mahlo GmbH

Mahlo GmbH + Co. KG, leader in developing and manufacturing modern textile machinery and quality control systems, located in Saal/Donau, welcomes Mr. Rainer Mestermann as the new Chief Executive Officer as of December 1. The graduate engineer coming from Thermo Fisher Scientific in Erlangen, Germany, is an internationally active supplier for measuring systems for flat webs.

During the course of his long professional career Mr. Mestermann held various positions. He was very successful as head of the international marketing and sales department as well as leading and developing the company further.

Mr. Ralph Greenwood-Mahlo, Participator - Chairman of advisory board at Mahlo GmbH + Co. KG., said: "We are very pleased to welcome such a qualified and field experienced successor to the Management of Mahlo GmbH +Co. KG. Mr. Mestermann will adapt Mahlo to current market trends and keep the company on the course for success with his long international sales and marketing experience, his pronounced technical understanding

and his profound market and product knowledge. Mahlo has positioned itself successfully on an international basis as a leading company for sophisticated solutions in developing and manufacturing of machines and systems for the textile, coating, foil and paper industries. So a perfect base was created to further develop and lead the company. We are looking forward to work with Mr. Rainer Mestermann. Together we will continue to look for continuity and innovation."

Mr. Ralf Hopp, who came from

the company Baumueller Nuernberg Group, a leading specialist for automation solutions and for drive systems, switched to Mahlo in October 2009 to assume a position in management, and he leaves the company now in mutual agreement.

Mr. Ralph Greenwood-Mahlo said: "Mr. Hopp was a loyal and professional colleague, and we very much appreciated his strategic working and technical understanding. The Mahlo family thanks him for his dedication and the trusting cooperation." ♦
